

# Moissanite Grading Report

Verified Certificate

<b>Date</b>	October 1, 2025
<b>GRA Report Number</b>	100100
<b>Shape and Cutting Style</b>	Round Brilliant
<b>Measurements</b>	5.10 x 5.12 x 3.17 mm

[Moissanit Germany](#)

Verify at [gracert.eu](https://gracert.eu)

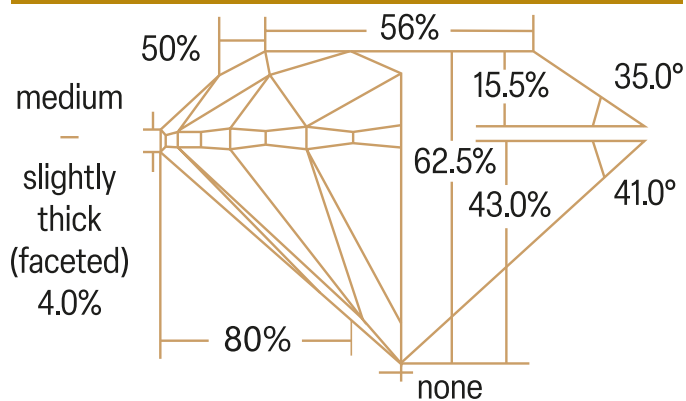

## GRADING RESULTS

<b>Carat Weight*</b>	0.50 Carat
<b>Color Grade</b>	G
<b>Clarity Grade</b>	VS2
<b>Cut Grade</b>	Very Good

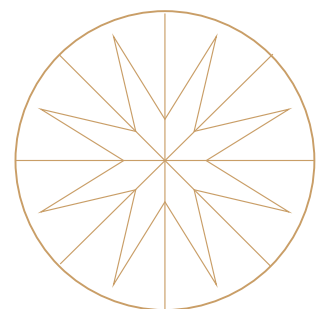

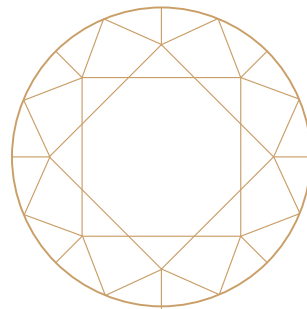

## ADDITIONAL GRADING INFORMATION

<b>Polish</b>	Very Good
<b>Symmetry</b>	Very Good
<b>Fluorescence</b>	None

## PROPORTIONS

## CLARITY CHARACTERISTICS

## Grading Scales & Information

### GRADING SCALES

#### Moissanite Color Scale

Colorless	Nearly Colorless	Faint	Very Light	Light

FL	IF	VVS1	VVS2	VS1	VS2	SI1	SI2	I1	I2	I3

#### Moissanite Cut Scale

Excellent	Very Good	Good	Fair	Poor
-----------	-----------	------	------	------

## Report Details & Disclaimer

### KEY TO SYMBOLS & EXPLANATIONS

- **Carat Weight\*:** For moissanite, the carat weight is measured in DEW (Diamond Equivalent Weight), which represents the equivalent weight if the stone were a diamond with the same size and density. One carat equals 0.20 grams. This is the standard measurement for moissanite in the gemological industry.
- **Color Grade:** A measure of the degree of colorlessness. The scale ranges from D (colorless) to Z (light color).
- **Clarity Grade:** A measure of the relative absence of inclusions and blemishes. Grades range from Flawless (no inclusions or blemishes visible under 10x magnification) to Included (inclusions are obvious under 10x magnification).
- **Cut Grade:** A grade that assesses the quality of a moissanite's cut, which determines its brilliance and sparkle. The scale ranges from Excellent to Poor.
- **Polish:** The smoothness of the moissanite's facets.
- **Symmetry:** The precision and alignment of the facets.
- **Fluorescence:** The glow a moissanite emits when exposed to ultraviolet (UV) light.

### DISCLAIMER

This report is a professional assessment of the moissanite identified by the GRA ID herein, performed by trained gemologists. It is not an appraisal, guarantee, or valuation of the moissanite described. All statements and descriptions contained in this report are based on observations and measurements taken at the time of examination using standard gemological practices and equipment. GRA makes no representation or warranty regarding this report or the moissanite described. This report refers only to the moissanite with the GRA ID inscribed on its girdle. For additional information, limitations, and disclaimers, please refer to the official website at [gracert.eu](http://gracert.eu).
